

2010 Formulary Guide

This formulary reference guide lists medications by drug class and by tier level of Generic, Preferred Brand and Non-Preferred Brand. Patients are encouraged to present this formulary guide during their provider visit and discuss with their provider the drug choices available to them.

FirstCarolinaCare encourages patients to use generic and preferred brand medications to lower your out-of-pocket costs. The use of non-preferred brand medications will result in higher patient out-of-pocket costs.

This formulary guide is not all-inclusive, nor does it guarantee coverage. Changes to the formulary guide can occur any time during the plan year. Patients are encouraged to visit the MedImpact Web site for more information on current formulary status.

For more information, visit
www.firstcarolinacare.com, or
www.medimpact.com/members or
call (800) 788-2949.

Generic*	Preferred Brand*	Non-Preferred Brand*
