

# Find support and experience with a Hally care coordinator.

Your care coordinator works with you, your doctors and nurses, and your health plan to help you reach your health goals. You don't have to do it alone!

#### Care coordinators help you:

- Make the most of your benefits and save money.
- Understand and manage illness and recovery.
- Coordinate your care when you have complicated health conditions.
- Care for yourself to prevent illness and hospital stays.
- Find great tools and resources to help you on your wellness journey.

Hally® care coordinators are here to support and encourage you as a service that's part of your health insurance plan, simply waiting for you to use. With a care coordinator, you have one go-to person who can answer questions and help you get the most out of your coverage.

**To get started or get more information call the number on the back of your health plan ID card.**

*This service isn't a replacement for care from your doctors, nurses or other healthcare providers.*
